

Non-rated and Fire-rated Stile and Rail Doors

Classic Stile and Rail architectural wood doors stand favorably alongside the very best in the industry. You get the same beauty and structural integrity in a 90 minute fire-rated door as you do in a simple non-rated doors. We know it works. We invented it.

Maiman Stile and Rail Doors combine high quality and long lasting beauty for a surprisingly low cost. Our doors represent a perfect merger of innovative technologically-enabled craftsmanship with historic tradition.

Maiman is a trailblazer in the wooddoor industry's quest to improve the fire-ratings of our doors. We invented and patented with world's first commercially available 90 minute fire-rated Stile and Rail door, and we manufacture doors with 20, 45, and 60 minute fire-ratings as well. We have perfected the craft of fire-rated Stile and Rail doors to the extent that a 90 minute fire-rated door will have the same beauty and structural integrity as a non-rated door.
